Effective & Affordable Social Media Marketing

ABOUT FOLLOW US

Follow Us is a social media marketing tool that provides small businesses with the ability to organically grow their relevant Instagram and Twitter following through our artificial intelligence technology.

Our platform helps new people nearby discover your business so that they can become your customers.

HOW IT WORKS

Follow Us does all the work of a highly paid social media guru for a low monthly fee per location.

We use proprietary human behavior prediction technology to apply our data analytic insights.

Signup takes under five minutes. You'll spend about two minutes a day managing your account.

Simple, clickable links enable smooth and seamless tracking. No additional software required.

Follow Us constantly increases your reach so that more people can discover your business.

Our deep machine learning algorithms enable Follow Us to learn through experience.

THE BUSINESS OF MARKETING HAS CHANGED

THE OLD WAY

Expensive, time consuming, difficult and confusing. An altogether unpleasant experience.

COUPONS

valpak & other coupon clipping services that go right in the garbage

flyers that people throw out

directory books that consumers no longer use

expensive social media marketers

extensive research for those that do it themselves

incredibly time consuming

upsells to more complicated programs

confusing control panels that take forever to figure out

information services that nobody calls anymore

taking a loss to get consumers that never return on their own

expensive consumer centric services that don't let you own your customer

expensive programs

tons of paperwork and reports to review in order to make intelligent decisions

THE NEW WAY

Affordable, quick, easy and clear. Follow Us guides you so you can focus on managing your business.
